Key rules for legal charitable sweepstakes:

- **Locality restriction:** It must be held within a single office, club, or set of premises. You cannot sell tickets on the street or to the general public, or include fully remote workers if they do not share a physical workplace with others.
- **No profit for you:** All money taken, minus prize pot, must go to charity.
- **Ticket distribution:** Every entrant must receive a ticket, or in this case a flag.
- **Chance elements:** The winner must be decided by chance, or in this case the world cup winner.
- **Charity vs. prize:** You can split the money between the charity and the winner, or donate all proceeds, but this must be clearly communicated before anyone buys a ticket.
